- » Remember, this is YOUR grow tracker. You can log how you water or care for your plants however you want to. **There is no right or wrong way to do it!**

Write your seed names here

Color or put a check mark in the box for the day you watered your seeds.

**Don't forget to check the weather and adjust for the rain!**

**You don't want to over water your seeds!**

## Grower Tip!

You can color in what days you should water your seeds in advance! Then, you can put a check mark over the colored box once you finish watering it!

This will make sure you don't forget to give your seeds some water to help it grow!
